

CORPORATE POLICY

YachtWorks was founded in July 2003 as result of a growing demand for a quality service in the marine sector.

Customer satisfaction is our main goal. Through a serious, methodical and insightful approach, we provide highly competitive products and services.

We are committed to sustainability and continuous improvement of the quality and environmental management system, which are a priority framework to our strategy and organisational context.

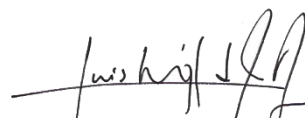

In accordance with these principles, YachtWorks management commits itself to:

- Motivate and develop our team
- Invest in the continuous training of our team
- Develop a responsible, lasting and trusting relationship with all customers and suppliers
- Promote a relationship of excellence with all stakeholders
- Comply with legal requirements and other commitments applicable to our activity
- Improve environmental performance, by minimizing the environmental impacts of our activity
- Protect the environment and prevent pollution
